What makes **TKD** different?

Our industry leading companies are active in the production, distribution and assembly of specialty cables and cable connectivity solutions.

The Cable Connectivity Group is one of the world's leading suppliers of cables, ready-to-connect cable systems and cable accessories. Our goal is to always find the best possible solution for our customers, no matter how complex or unique your requirements may be.

Production

Production of low voltage flexible cables for industrial applications. The advanced technology and quality control procedures, carried out by highly qualified personnel attentive to the needs of our customers, have won the trust of many companies throughout Europe.

Distribution

Global distribution of a wide range of specialty cables and cable accessories to OEM customers and wholesalers from multiple locations in Germany, the Netherlands, Belgium, Italy, Poland and China.

Assembly

CCG's custom designed cabling and harnessing customer requests are increasingly diverse and bespoke. From a very first special demand to logistics and after sales. At every single touch point, we have an expert who is willing to share the required knowledge with our customers.

Service modules

Consulting Service

Partnership advice

We would be pleased to advise you personally, also on site, and support you with technical questions regarding the application, the product properties or the selection of materials.

Logistics Service

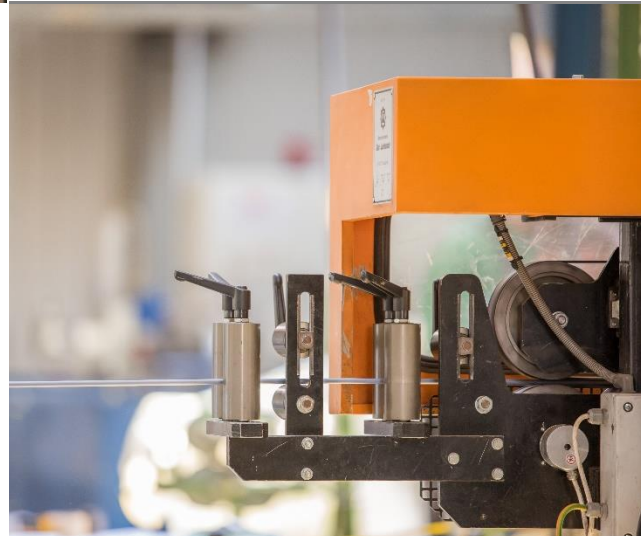

Available 24/7

Our fully automated logistics centre supplies you on time within 24 hours*. We can also help with special deliveries or express delivery.

Cabel Service

Individual cable solutions

You can not find the right cable in our catalogue? We develop and design for you individually exactly the cables or systems that are precisely tailored to your applications.

IT Service

Bits and bytes for clean processes

EDI, electronic article data exchange, individual labels, eCAD data for EPLAN & Zuken, Track & Trace and much more.

Logistic

- Fully automatic high rise rack warehouse
- 12 truck ramps
- 15.350 Euro pallet storage spaces
- Central supply
- Tailor-made cable solutions
- Special shipping & packaging solutions
- 2 large external storage facilities for conveyor technology and cables for outdoor use

Stay safe with **TKD**

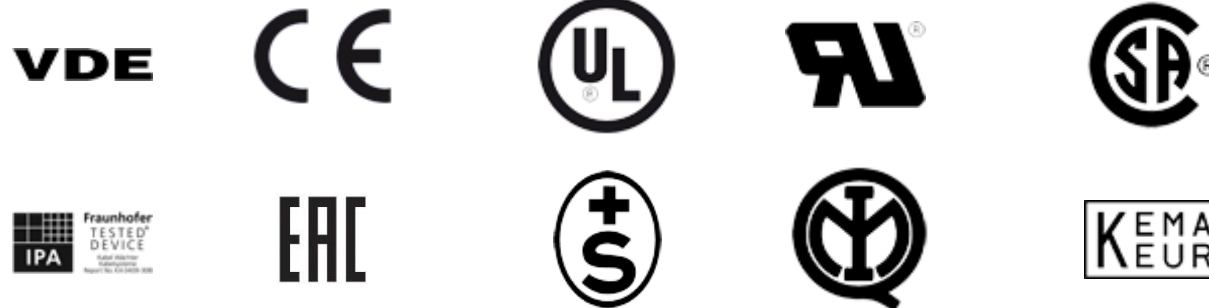

DIN EN ISO 9001:2015

Quality Management

Quality is written in capital letters at TKD. The companies of TKD have been certified according to DIN EN ISO for many years. But our quality thinking goes far beyond the certifications.

An innovative quality management system guarantees a high standard for all processes at TKD. Continuous improvement of the processes is guaranteed by a functioning management system that is actively lived at all levels!

TKD Worldwide

From Germany to the whole world

Powerful partner network

We are already represented by our own TKD locations in France, Poland, Italy and China. 

Worldwide we are represented by strong partners in more than 60 countries.

A total of more than 1600 cable specialists work around the clock - all over the world to supply you with our cable solutions.
